Summary

Full-stack engineer (Vue 3/Nuxt 3, TypeScript, Python/Django, PostgreSQL) who builds **Arabic-first, bilingual RTL products**. Built an IP-management platform end to end (**52 IP services live**), rebuilt **cepro.ai** on Next.js 15 + React 19 **two weeks early**, and shipped **six production apps** as Digitee's sole frontend engineer. Since March 2026 I also run IT delivery at SIPRC while still writing code; I want to stay technical full-time. In industry since 2022.

Experience

Saudi Intellectual Property Rights Company (SIPRC) — *IP-services firm, Riyadh, KSA*

Jul 2025 – Present

Project Manager, IT Projects

Mar 2026 – Present

- Still hands-on: led the in-house build of the trademark-monitoring platform (Django, PostgreSQL), **now in production**, after writing the requirements and running a four-vendor evaluation.
- Run delivery for **five production systems**; led a cloud migration with **zero downtime** and rebuilt reporting as a custom module after a Power BI build was rejected.

Senior Frontend Engineer, then Full-Stack Engineer

Jul 2025 – Mar 2026

- Built the IP-management platform end to end on a commercial admin base (Nuxt 3 + TypeScript, Django + PostgreSQL): data model, modules, role-scoped access, backend integration, Arabic/English RTL; the operations team's daily system of record with **52 IP services live**.
- Owned the **cepro.ai** rebuild on Next.js 15 + React 19: 17 pages with in-browser Arabic OCR (Tesseract.js), delivered **two weeks early**; built the **siprc.sa** website (TypeScript, Vite, GSAP) and its AI support assistant.
- Founded the QA practice: 530+ automated Selenium test cases across 170+ features, manual regression down **40%**; wrote the 59-page developer docs that **halved onboarding**.

Frontend Engineer, contractor then full-time

May 2025 – Jul 2025

Cepro (SIPRC group) — brand protection

- Built the Cepro brand-protection dashboard from zero (Vue 3 + Django): role-based access and SLA-tracked takedown workflows; moved to the parent company SIPRC in Jul 2025.

Frontend Engineer

2024 – 2025

Digitee (Nexxora Holding) — AI-powered fashion technology, remote

- Sole frontend engineer: **six production apps** from zero to launch — Mintora print-on-demand, AR virtual try-on (TensorFlow.js + MediaPipe Pose), Three.js 3D showroom.
- Shipped **five-country e-commerce** (geo-aware routing, PayPal + Kashier, five languages) and a B2B dashboard with AI image generation, extended to **16 locales** with full RTL.

Frontend Engineer

2023 – 2024

IDAAM — Brain Health Technology, USA, remote

- Built front-end modules for Keme, a US clinic-management platform (Vue 3): patients, appointments, telehealth and billing, against a Laravel REST API.

Frontend Developer

2022 – 2023

Freelance — remote

- Client projects, requirements to deployment: Climate Risk Assessment Tool (PhD research, Leaflet maps), fitness e-commerce (Django REST), User Management Dashboard (TypeScript, Cypress E2E, EN/AR RTL).

Selected Projects

- Tibyn** (freelance, Aug – Sep 2026) — UI/UX audit remediation for Nobel Business's aquaculture SaaS: closed **41 of 44** findings, each reproduced in a real browser first; frontend tests 413 → **436**, no regressions. [tibyn.ai](#)
- Resilience Scale for Schools** (freelance, 2023 – 2024) — interactive Arabic/English design-criteria matrix for school buildings, for academic researchers. [live](#)

Skills

Frontend: Vue.js 3, Nuxt 3, React 19, Next.js 15, TypeScript, JavaScript (ES6+), Pinia, Tailwind CSS

Backend & data: Python, Django, Django REST, REST APIs, PostgreSQL, Laravel, Elasticsearch, Docker, OCI / AWS

Testing & CI: Vitest, Playwright, Cypress, Selenium, GitHub Actions, CI/CD

3D & in-browser AI: Three.js, WebGL, TensorFlow.js (MediaPipe Pose), Tesseract.js (OCR) · **i18n & a11y:** vue-i18n, next-intl, RTL/LTR, WCAG 2.1, up to 16 locales

Open source: [vue-rtl-kit](#) & [django-rtl-admin](#) (RTL toolkits, 298 tests) · [decision-matrix](#) (Vue 3, 63 tests) · [phasegate](#) · [django-postmortem](#)

Education & Languages

B.Sc. Computer Science, Assiut University — Egypt, 2019 – 2023

Languages: Arabic (native) · English (professional)
